

Dear Editors,

Please find attached the files of our manuscript, type: original scientific paper:

Optimization of formulation and process parameters in manufacturing of capsules containing probiotic and iron

M.sc.pharm.spec. Davor J. Korčok, M.sc.pharm.spec. Olivera Čolić, M.sc.bioch.engineering
Nada Tršić-Milanović, M.sc.pharm. Bogdan Mitić

submitted for consideration for publication in Hemijska industrija.

The novelty of this work is a development of a novel probiotic product with iron and vitamin C for treatment of iron deficiency anemia with declared number of probiotic cells until the end of its expiration date. Maintenance of the declared number of viable cells is an essential condition for the manifestation of probiotic activity.

The submitted manuscript is original, has not been published elsewhere and has been written and approved by all the stated authors as well as by the responsible authorities where the work was carried out. Also, the manuscript is currently not being considered for publication by any other journal and will not be submitted for publication elsewhere while in the reviewing process in the journal Hemijska industrija. If accepted, it will not be published elsewhere including electronically, in the same form, in English or in any other language, without the written consent of the copyright holder.
